**EXHIBIT 7 TO THE PROPOSED PRETRIAL ORDER
DEFENDANTS' PROPOSED TRIAL EXHIBIT LIST**

The following codes are used to indicate Plaintiff's objections to Defendants' exhibits:

106	This exhibit is objectionable because it is incomplete and the introduction of the remaining portions ought, in fairness, to be considered contemporaneously with it (see F.R.E. 106).
402	This exhibit is objectionable because it is not relevant (see F.R.E. 402).
403	This exhibit is objectionable because its probative value is substantially outweighed by the danger of unfair prejudice, confusion of the issues, or misleading the jury or by considerations of undue delay, waste of time, or needless presentation of cumulative evidence (see F.R.E. 403).
801	This exhibit is objectionable because it is a statement made by one other than the declarant while testifying at trial, offered into evidence to prove the truth of the matter asserted and not subject to any hearsay exception (see F.R.E. 801 and 802).
901	This exhibit is objectionable on authenticity grounds because it is insufficient to support a finding that the document is what Defendants purport it to be (see F.R.E. 901).
C	This exhibit is objectionable because it is an improper compilation of multiple documents.
L	This exhibit is objectionable because it is illegible.
F	This exhibit may be objectionable if the proper foundation is not laid for this document.
O	This exhibit is objectionable because it was not produced or identified prior to the close of discovery.
